

GETTING STARTED WITH RUNDOD · UNBOXING

Answers in Your Hand

The Rundoo POS app (the blue one) puts product lookups, stock, prices, labels, and customer notes in your pocket, right in the aisle.

WHAT YOU CAN DO ON THE FLOOR

1

Look up a product

Answer "do you have it?" and "how many?" on the spot.

[More → Products](#)

2

Check the price

Retail plus a customer's contractor or tier price.

[On the product screen](#)

3

Print a shelf label

Replace a missing or faded tag then and there.

[Print label → Zebra](#)**Get in and get answers**

- 1 Open the **blue** Rundoo POS app, tap **Sign in using text**.
- 2 Enter your cell number, tap **Send code**, type the 6-digit code.
- 3 Tap **More → Products**, search or scan the label barcode.
- 4 See on-hand, bin location, and price. Tap **Print label** if needed.

Leave a customer note**More → Customers**

Open the account, tap **Add interaction**, type, and save. It's attached for the team at the counter.

Get the right app: two Rundoo apps show up in the store. The **blue** one is Rundoo POS, for staff. The black one is your customers' app and won't sign you in.

Not a full register: you'll still ring up sales, receive purchase orders, and take card payments on the web app. Think of the phone as your window into the store from anywhere.
