

GETTING STARTED WITH RUND00 · RUND00 AI

Just Ask Your Store

Type a plain-English question about your sales, customers, or stock, and Rundoo AI answers in seconds. No report to build.

THREE WAYS TO OPEN IT

1

The full view

All your past chats saved down the side.

POS → Analytics → Rundoo AI

2

The sparkle

One click from anywhere in the app.

Top-right of the header

3

From Search

Type a question, it hands off to AI.

Search → Ask AI row

Ask a question in 3 steps

- 1 Click + **New chat**, then type your question in plain English.
- 2 Press **Enter**. Read the summary, table, and key highlights.
- 3 Ask a **follow-up** right in the same thread. It remembers.

What comes back**Summary + table + highlights**

Plus an inline [link to the source report](#) so you can open the full data.

The one habit: answers run on your live data, so treat any load-bearing number (a reorder quantity, a customer balance) as a first draft. Click through to the full report and confirm before you commit.

Be specific about dates. "This month" gets interpreted on the fly. If the range is off, restate it plainly, like "March 1 to March 31, 2026."
