

Tally Products

Sell cut-to-size items under one line. You enter the pieces and sizes, Rundoo totals the footage and the price.

THE THREE TALLY TYPES

1

Area

Plywood, flooring, countertops.

Per square foot ($L \times W$)

2

Length

Metal roofing, lumber, gutter, pipe.

Per foot (one measurement)

3

Unified length

Cut mirror and glass.

Per united inch ($L + W$)

Set it up (once per product)

- ① Open the product, go to **Settings**, toggle **Tally** on.
- ② Pick the type that matches your pricing (Area, Length, or Unified length).
- ③ Check the units of measure are set (square foot or foot) first.

At the counter

Add it to a sale → the Tally box opens

Enter **pieces × length × width**, **Add row** for each size. Rundoo lists every cut and totals it on one line.

Setup is one time per product. Do it by hand, use the bulk uploader for several at once, or just ask Dooley.
