

GETTING STARTED WITH RUNDOD · UNBOXING

The View From **Anywhere**

The Rundoo POS app is a window into your store, not the register. Watch your numbers from the truck, the supplier, or the couch.

WHAT YOU CAN WATCH

1

Your numbers

Revenue and gross profit, any date range.

[Home dashboard](#)

2

Every location

Each store on its own line. Tap to drill in.

[Scroll down on Home](#)

3

Your bank

The Rundoo bank balance from Go-Live.

[Right in the app](#)**Get in in 3 taps**

- 1 Download **Rundoo POS**, the **blue** icon (not the black customer app).
- 2 Tap **Sign in using text message** and enter your cell number.
- 3 Type in the **6-digit code** Rundoo texts you. You're in.

Also on the phone**Search · Notes · Counts**

Search products & customers, drop a customer note, and count inventory by [camera scan](#).

Opens on your numbers? Only if your login has the analytics permission. Without it, the app lands on the transactions screen. Your Rundoo guide can set the permission under Staff.

It's a window, not the register. No ringing up sales, receiving POs, receipts, or card payments yet. Those stay on the web app. Looking around here won't change a thing, so explore freely.
