

GETTING STARTED WITH RUND00 · UNBOXING

Welcome to Rundoo

You run, we do. The core of your business stays the same, and one guide walks you all the way from set up to go live.

THREE THINGS THAT DON'T CHANGE

1

Your hardware

Most computers, scanners, and drawers carry right over.

If something needs an update, we send it.

2

Your data

Customers, vendors, and products come with you.

We handle the migration.

3

Your daily flow

Ring a sale, check a balance, print a receipt.

Same rhythm you know.

Your onboarding, in three steps

- 1 **Set Up.** We build your system and bring your data over.
- 2 **Learn.** A dress rehearsal in a safe practice store. You can't break anything.
- 3 **Go Live.** We're beside you on day one, a call away after.

Your Rundoo guide**One consistent person**

Your direct line the whole way. See something that doesn't fit how you work? **Just tell them.**

Take it at your own pace. These videos and the team aren't going anywhere. When you're ready, hit play on video two to get your account set up.
